Comments:

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The UAA was conducted in May, 2005, and no WBCR was observed. The stream did not meet the maximum or average depth criterion in in the only site that was evaluated. Because the stream was extremely shallow and the next site DS (see segment 1209) also does not meet the depth requirements, the committee recommends removing the WBCR designation.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☒ Remove Use ☐ Inconclusive
